

## PACIFIC PREMIUM GEL GREASE

**Introduction :** It is a high quality lubricating gel grease developed by using an optimized combination of high performance base oil, special lithium semi-complex thickener technology and performance additives. It's high thermal stability ensures prolonged resistance to the effect of heavy breaking. It is a unique combination of molecular structure which offers excellent product stability under wide operating temperatures.

**Application :** Recommended for use in automotive wheel bearings on all types of passenger cars, commercial vehicles, off highway equipments and farm equipments.

### Performance Benefits :

1. Excellent shear stability & high drop point.
2. Excellent water resistance results in good sealing properties and trouble free operation.
3. Super corrosion protection with good extreme pressure properties enhances service life.
4. Good compatibility with different sealants/polymers.
5. Provides satisfactory performance for a long period under ideal prescribed conditions.

**Specifications :** IS 7623-1993, NLGI- 2.5

### Characteristic :

1. Appearance	Transparent Red
2. Base oil Viscosity @100°C cSt min.	105
3. Drop Point °C min.	240
4. Soap Type	Lithium Semi- complex
5. Structure	Smooth & Buttery

**Pack Size :** 180 Kg, 18 Kg, 5 Kg, 1 Kg, 500 gm

\*These Specifications are of a Particular Lot they can differ from lot to lot but will not effect the performance of the oil
