

PACIFIC REFRIZOL

REFRIGERATION COMPRESSOR OILS

Introduction : PACIFIC REFRIZOL OILS are premium grade Refrigeration Compressor lubricants blended from highly refined naphthenic base oils having excellent oxidation stability & resistance to deposit formation.

Application :

1. Recommended for lubrication of wide range of refrigeration compressors operating with conventional refrigerants except sulphur dioxide and freon.
2. Suitable for lubrication of reciprocating and rotary compressors.
3. Low pour point and excellent low temperature fluidity of the product make them excellent choice for subzero application temperatures.

PERFORMANCE BENEFITS :

1. Good fluidity at very low temperature.
2. Good oxidation stability & ensure long service life.
3. Good thermal stability.
4. High condenser efficiency.
5. Suitable for both reciprocating and rotary compressors.
6. Resist deposit formation during use.
7. Resists to form foam.

Specification : BIS 4578 - 1989

Characteristic

PACIFIC REFRIZOL

ISO VG	32	46	68
KINEMATIC VISCOSITY @ 40°C, cSt	30-34	45-48	65-70
POUR POINT, COC°C, MIN	-30	-27	-24
FLASH POINT, COC °C, MIN	154	160	170

Pack Size : 210 Ltrs & 20 Ltrs

*These Specifications are of a Particular Lot they can differ from lot to lot but will not effect the performance of the oil
