

PACIFIC SPECIAL VM4 Vacuum Pump Oil

Introduction : PACIFIC SPECIAL VM4 Vacuum Pump oils are specially developed products from highly refined selected lube base stocks. These products are having low vapour pressure and high thermal stability.

Application : PACIFIC VM4 Oils are recommended for high vacuum producing diffusion pumps

Performance Benefits :

1. Offers high oxidation resistance
2. Good thermal stability
3. Low chemical reactivity
4. Maximum pump oil life
5. Long seal life and maximum pump durability

Specification : GOST 23013 – 78

Characteristics :

KINEMATIC VISCOSITY @ 40°C, CST
@50°C, CST
@100°C

Viscosity index, min

Flash point, °C, min

Pour point, °C, max

TAN, mg KOH/G, max

Vapor pressure at 20°C mm of Hg. Max
